

TRAINING & DEVELOPMENT NEWSLETTER

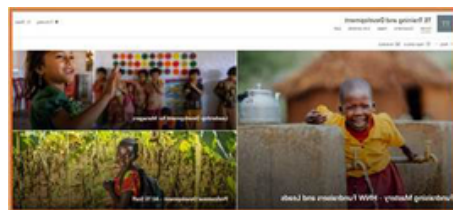

IN THIS ISSUE

- SharePoint site redesign
- New online learning offerings
- Reach 360 Orientation opportunity

COMING SOON

- We're excited to be partnering with Chris Glynn to offer **Leadership Training** based on the work of Dr. W. Edwards Deming. More to come!
- We will be offering multiple courses in the category of **Team Development** this year. Stay tuned for new releases in November and throughout the year.
- Leaders- **Rise to the occasion!** Please be on the lookout for an automated Rise invitation. Rise is the online learning and development platform for Transformational Engagement. Please accept the invite when it arrives to your inbox and explore.

The TE Training & Development Team will be sending out updates around all things training related, from new content to refreshing current resources. These content and resources align with our Training & Development goals for FY23 which focus on Fundraising Mastery, Leadership Development, and Team Development. Expect one of these once a month full of opportunities and resources that will enhance your personal and professional growth.

SharePoint Training Site Re-Design

We have a new look!

Re-imagined with our FY23 training priorities in mind, this site can and will soon showcase upcoming content, webinar recordings and more.

Growth Mindset & Overcoming Fear of Failure for teams

Our 2 new Team Development offerings combine on-demand learning from Rise with small group discussion and activities. These resources will better equip teams to realize their potential, unlock their capacity to learn, grow, and thrive. By re-framing our thinking, we can take otherwise daunting challenges and turn them into valuable opportunities for building confidence and learning.

RISE to the occasion!

Leaders! This one is for you. Rise is the new Learning platform for the Transformational Engagement Division.

Reach out to Amanda for an invite to the platform and to schedule a tailored orientation to navigation, selecting courses, and browsing the library! We can also help you design learning paths that will help equip and empower your teams to achieve goals and support their development.
